ABOUT THE CONFERENCE

Built for high-signal conversations.

NexusCon '26 is a full-day, high-impact conference in Bengaluru bringing together developers, AI practitioners, cloud architects, engineering leaders, students and founders.

This is not a generic event. It is a focused space for real learning, real networking and real opportunities — where ideas become implementation.

Sponsors gain direct access to a curated technical audience and become part of the ecosystem shaping what comes next in AI and Cloud.
